TITLE: Adjusting an automatic gear when driving
over crest of a
road in vehicle with speed control system
inhibits
immediate change to higher gear when crest
has been
traversed

INVENTOR: LINDEN, T

PATENT-ASSIGNEE: DAIMLERCHRYSLER AG[DAIM]

PRIORITY-DATA: 1999DE-1024945 (May 31, 1999)

ABSTRACTED-PUB-NO: EP 1057682A

BASIC-ABSTRACT:

NOVELTY - When approaching the crest often the torque required initiates a gear change downwards by the automatic gear system. Once past the crest the vehicle coasts and the speed increases so that a change upwards is called for. The invention checks that the vehicle has passed the crest and holds the gear in the current gear stage

USE - Controlling gear changes

ADVANTAGE - Prevents frequent gear changes when
traversing road crests
increasing comfort and driving safety and comfort

CHOSEN-DRAWING: Dwg.0/1
